Education

Dr. A. P. J. Abdul Kalam Technical University

Delhi-NCR

Bachelor of Technology in Computer Science;

2020-2024

DAV Inter College

Shamli, India

Senior Secondary; Percentage 76%

2019-2020

Experience

Great Eastern Id Tech pvt. Ltd

September 2024 - Present

Software Developer

Gurugram

- As an Android Developer at Great Eastern ID Tech Pvt. Ltd., I am actively involved in designing, developing, and maintaining core features across multiple ongoing mobile application projects.
- I collaborate closely with cross-functional teams to troubleshoot issues, optimize application performance, and implement new functionalities, ensuring high-quality and scalable Android solutions.
- During my professional experience, I have worked extensively with Java and Kotlin, Android SDK, REST API integration, RecyclerView-based UI development, and real-time data handling. I have also been involved in debugging, performance optimization, and collaborating with backend teams to deliver stable and user-friendly applications.

Sintech Technologies

June 2023 - November 2023

Software Developer Intern

Ghaziabad

- Successfully developed and implemented Java-based applications under the guidance of senior developers. Demonstrated strong problem-solving skills and analytical thinking in resolving programming challenges. Acquired hands-on experience in Java technologies, including Spring, Hibernate, and JavaFX.

Achievements

- 500+ Questions of Data Structure and Algorithms, Solved on Various Coding Platforms
- Work as vice president in Nabula Society at my collage. k
- Successfully organized and executed a college event, coordinating logistics, managing a team, and ensuring a seamless and engaging experience for 500+ students.

Projects

GUI Based Calendar | *Python, Tkinter*

June 2022

- Developed a GUI-based calendar application using Python and Tkinter, allowing users to search for specific days by entering a date.
- Implemented a reminder feature, enabling users to set and manage notifications for important events and tasks.
- Utilized Python and Tkinter for robust application development, demonstrating proficiency in GUI programming and event handling.

Resume Builder Website | *HTML, CSS, JavaScript*

Feb 2023

- Created a user-friendly Resume Builder website that allows users to generate professional resumes by inputting minimal personal and professional details.
- Designed and implemented a dynamic form using HTML, CSS, and JavaScript, ensuring a smooth and responsive user experience across various devices
- Utilized HTML, CSS, and JavaScript for front-end development, showcasing strong skills in web development and interactive design.

Grievance Redressal System | *XAMPP/WAMP server,*

Feb 2023

- Developed a Grievance Redressal System website enabling students to easily submit, track, and resolve complaints related to college issues.
- Implemented a discussion forum feature, allowing students to collaborate and discuss problems with peers, fostering a supportive community.
- Utilized XAMPP/WAMP server environments for local development, and leveraged IDEs such as Notepad++, Visual Studio Code, and Eclipse to streamline coding and debugging processes..

Skills

Languages - Kotlin, Java, C, HTML, CSS, DBMS, SQL, Data Structure Algorithms, OOPs

Technical Skills-Data Structure Algorithms, DBMS, Operating System, Network

Other Skills - Leadership, Problem Solving, Time Management, Teamwork, Creativity
